Prices include travel expenses within 300 round trip miles. I ask for half down as a deposit. I show up approximately 1.5 hours early to paint in the basics and get all set up. I paint the moment that you would like for me to capture and then on into the night for another hour or two. I will then ask that you have an easel and light prepared to exhibit the painting for the remainder of the evening. Your guests will be sure to enjoy seeing the process and final product!
